CALL OFF TARKIO GAME HERE

Normal Base Ball Team May Play Missouri Wesleyans Here This Week, However.

Word was received by Coach Walter Hanson of the Normal, today, that the base ball game which was to have been played with Tarkio at Tarkio college May 7, would necessarily be postponed because of the Tri-State high school track meet which is to be held there on the following day.

An effort is now being made to procure a game here sometime during this week with the Missouri Wesleyan college of Cameron in lieu of the game which was called on account of rain here on April 23.

The Normal team will make its first invasion in alien territory May 13, when it will meet the Missouri Wesleyan team at Cameron, going from there to William Jewell's diamond at Liberty May 14.

It will play Tarkio at Tarkio probably May 27, while Tarkio has agreed to come here for a game the week beginning May 17.

CHRISTIANS PLANT FLOWERS.

Sunday School Classes Allot Tract at Fourth and Buchanan.

The allotment of the A. S. Robey lot, at the southwest corner of Fourth and Buchanan streets, into separate tracts for the various Sunday school classes of the First Christian church is completed, and now the planting of flowers is in progress. It is under the supervision of E. R. Utter, high school principal, leader in the "garden club" movement. The Rev. R. L. Finch, pastor, also will superintend the move.

No gardening will be done. But vines will be trailed along the brick wall at the east side of the lot and over the large cottonwood tree stump on the north side. The six junior classes of the Sunday school already have done some planting and have arranged a center flower bed. They will occupy the east central portion of the tract.

The class of girls taught by William Miller will tend to the southeast and south portion, while the class of girls taught by Miss Laura Hawkins will tend to a portion facing Buchanan street near the south end. The remainder of the tract is yet to be assigned to classes.

WILL SHOW ERRORS

EVANGELIST MAKES SPECIAL APPEAL TO BUSINESS MEN TONIGHT

TO BURN PLAYING CARDS

Will Hold Public Bonfire—The Rev. Mr. Price Says Nation is Intoxicated With Prosperity.

A special talk to the business men of the city will be given tonight at the First Methodist church by the Rev. Thurston B. Price, who is conducting the evangelistic service. Reserved seats will be held for all business men attending.

The bonfire of playing cards which was to have been held last night was postponed until tonight in order to give all a chance to contribute. A great many were brought in yesterday afternoon and last night and given to the evangelist. Because of the response made yesterday, the opportunity will be open until after the service tonight.

Some Individual Bonfires.

The bonfire of the aces, the jacks, queens, kings, hearts, spades, clubs, jokers and diamonds, whether in decks or singly will be held in front of the church immediately after the usual service tonight, regardless of the number turned in by that time. It is expected about thirty decks will be forthcoming. The number now is about twenty.

Many were turned in today, and last night after the service. Some have said they held individual bon-fires, however, in their own homes, which will diminish the size of the bon-fire appreciably. An instance of the way the young men especially are responding to the call for the cards, was cited by Evangelist Price last night.

As he approached Second and Main streets after the special service yesterday afternoon, a young man, about 22 years old, stepped up to him and handed him a package saying, "Here take these, I don't want anything more to do with them." The package proved to be a deck of playing cards, practically new.

This afternoon the usual service was held, the evangelist speaking from the topic, "The Foretold Christ."

Intoxicated With Prosperity.

One of the striking statements made last night by the Rev. Mr. Price was, "This nation of ours is intoxicated with prosperity. Talk about hard times, there are hard times in some places temporarily, but old America is absolutely rolling in prosperity and wealth. The most alarming thing is the tendency of the people to allow their prosperity to wear them away from God. How easy it is to go off and forget God that blessed us with prosperity."

The subject of the sermon last night was "Jonah and the Whale" and in speaking from the topic, the evangelist said in part:

Jonah and the Whale.

"The subject that I have selected for our consideration tonight is one that has created a great deal of useless controversy and comment. It has been the basis for a great deal of nonsensical argument."

"Some folks like to argue and make some of the miracles a basis for their skepticism. Some will say, 'Now, Mr. Price, that story is out of the question.' In the first place, it is a positive well known fact that it is a physical impossibility. The largest whale that has ever been captured has been found to have a throat which was just nine inches across, and that it could not possibly take in a man's body."

"Looks to me like God could take care of the swallowing process if he wanted to. Some folks don't believe anything they can't understand. You don't understand one-half the things (Continued on page 2.)"

ORATE, RUN AND JUMP

Three Local Students Also to Enter Literary Contests—Four Leave Tomorrow for Trenton.

The Maryville high school will be represented in both the Trenton and the Tarkio high school track meet and literary contests to be held Friday. The contest at New Hampton Saturday does not entitle the Nodaway county schools to compete. It is planned to send only local athletes to the Trenton events and those oratorically inclined and several athletes to Tarkio.

The students who will probably compete in the literary events at Tarkio are Don Roberts, Phillip Colbert and Miss Georgia Evans. Roberts will deliver the oration "Give Me Liberty or Give Me Death," by Patrick Henry, with which he won first in the boys' declamatory contest at the Normal inter-high school contest recently.

Miss Evans will declaim on "Queen Quiviver," which she presented at the meet here. Colbert will deliver his address on Lincoln, with which he won the Lincoln trophy in the county high school contest here in February.

To Enter Tarkio Athletics.

Verne Pickens, one of the Maryville high school's best athletes, but who did not compete at the inter-high school track meet here last month, on account of a previous sprain, will also compete in athletics at the Tarkio meet. He is entered for the following events: 50-yard, 100-yard and 220-yard dashes, quarter-mile and half-mile run and broad jump.

Don Roberts, although going primarily to compete in the declamatory contest, will compete in the shot put, while Phillip Colbert will take a turn at the high jump. Neither have trained much for the athletic events, but some practice is now being taken. Roberts will also try the broad and high jump.

Leave Tomorrow Night.

The students going to Tarkio and also those going to Trenton will probably leave here tomorrow afternoon. The Trenton quartet will go first to St. Joseph, remain over tomorrow night, then go to Trenton, arriving there about noon. E. R. Utter, high school principal, will accompany them. Harry Friel Pleads Guilty, But Says He Didn't Steal Harness.

Harry Friel, who gave his home as Logan, W. Va., pleaded guilty to a state charge of petty larceny before Justice W. L. Johnson this morning and was sentenced to serve sixty days in the county jail. He was charged with having stolen a new saddle and a set of single harness from H. T. Crane, last Saturday night. They were valued at \$28.

Even though Friel pleaded guilty, he maintained that he did not steal the harness nor saddle, but merely sold them for a stranger. The receiving of stolen property also is a state offense.

OPPOSE MULBERRY PAVING

YEOMEN TAKE FORWARD STEP

Fraternal Order Lenses W. O. W. Hall for Weekly Meets—To Reorganize Friday Night, May 7.

The 100 Maryville members of the Brotherhood of American Yeomen, a fraternal order, will meet Friday night in the Woodmen of the World hall, third floor of the Mutz building, to organize a local lodge, or Homestead, as it is called in the Yeomen association. A contract was signed yesterday afternoon whereby the Yeomen have use of the hall each Friday night for one year for \$10 per month, beginning May 7.

At that time C. L. Vrooman of Kansas City, state manager, who has been here several weeks, will meet with and supervise the organization of the Maryville homestead. The local lodge fund already amounts to about \$400.

At present John Alely is foreman and T. J. Parle is correspondent here. Besides the reeling of these two positions there also will be a master of ceremonies, a master of accounts and a chaplain to be provided. They are elected for one year. The foreman then appoints an overseer, guard, watchman, sentinel, a Rowena, or lady of entertainment, and a Rebecca, or lady of charity.

Women, as well as men, are eligible to enter the Yeomen order on an equal footing, and entitled to equal privileges. They meet together.

Following the formal organization Friday night a banquet to old and new members will be held at 6:30 o'clock next Tuesday night, May 11, probably in the Christian Endeavor room of the First Christian church. The women's organization of that church will decide soon whether to serve the banquet.

It is the plan of Manager Vrooman to have weekly entertainments, for both business and social activities. Dances, entertainments and an orchestra are among the plans socially.

PLAN FETES TO MARK SCHOOL END

ATHLETIC AND OTHER STUNTS ARRANGED FOR MAY 20, 21.

HIGH SCHOOL ATHLETES COMPETE FOR HONORS

Track Meet to Be Held at Fair Grounds, Closing Day—Grades Plan Two Picnics.

The close of the 1914-15 term of the public schools of the city, Friday afternoon, May 21, will be marked by several entertainments for the pupils Thursday afternoon and Friday, May 20 and 21. There will be about thirty pupils pass from the eighth grade this term, Superintendent W. M. Westbrook announces. The exact number will not be known until the final papers are examined, May 21, however.

The names of those passing from the grades into high school will be announced Friday afternoon, May 21. Most of those in the eighth grade have made good averages throughout the term, it is said, so that a large list of approved students is expected.

Students to Compete.

A track meet and athletic events for boy students of the Maryville high school will be held on the county fair grounds, East First street, Friday afternoon, May 21, beginning at 2:30 o'clock, according to announcement made this afternoon by Superintendent Westbrook. It will be the closing day of the public schools.

Events similar to those arranged for the inter-high school meet at the Normal grounds, April 24, will be given.

It is believed fully twenty athletes of the school will participate. Ribbons will be given to the winners. Some other kind of a prize, possibly a loving cup or a medal, will be given to the boy making the largest individual number of points in the events.

To Retain Interest.

This is an innovation at the high school. It is designed primarily to keep the boys interested in athletics and in training for the next term's events here and through the district, in which they might participate.

After the meet a luncheon will be served on the grounds by the members of the domestic science classes. A small charge will be made, with which the class intends to buy some needed equipment. The general public is invited.

Another feature marking the close of the 1914-15 term of the public schools of Maryville will be held on Thursday afternoon, May 20, for all grade pupils. There will be two divisions. Each will begin at 2 o'clock.

Small Pupils to Picnic.

All grade pupils of the Central high school building will gather at the fair grounds, East First street. Each child will be expected to bring a lunch. After a few games and athletic stunts are held, the luncheon will be served.

The pupils of the ward schools, consisting entirely of younger children, will meet on the campus of the Central school building. A program of songs, folk games, and other forms of entertainments have been arranged to be held on the grounds.

A number of athletic events for the tots also will be given.

STANBERRY BOOSTS PARK.

Mayor Proclaims Half Holiday—Ball Game Receipts for Public Improvements.

Mayor J. H. Price of Stanberry has issued a proclamation declaring a half holiday today. A base ball game will be played between two local teams this afternoon and the proceeds will go to the Mothers' club, which is working for public park improvements. The schools were dismissed.

THE FOLLY OF THE AGES.

"Tell Louis I am sorry" is the pathetic message sent by Mrs. Schweiger of Kansas City to her husband, whom she had shot in a fit of jealousy. She had also shot herself and, between the periods of distress from her wounds, she had begun to realize her folly and remorse was taking the place of frenzy. But Louis was dead. He was beyond the fangs of jealousy or the tenderness of pity. Her aim had been only too true, and Mrs. Schweiger is being nursed back to life only to be tried for first degree murder.

What a need is there for something that will ally that terrible passion, jealousy. Since the days when Saul smote David jealousy has continued to dethrone reason and lead men and women to misery, despair and destruction. A terrible disease or passion of mind as old as the human race itself, perilous to life, destructive of happiness and subversive of character, science has apparently developed no remedy or relief.

Nor has it lessened the food upon which jealousy sustains itself mainly. Gossip, the poisonous vintage of idle and malicious tongues, is the white whisky of loose conversation. Gossip and jealousy go hand in hand and their offspring is misery and remorse. Mrs. Schweiger listened to the whispers of irresponsible tongues and jealousy overcame her faith and she took the life of the man she says she loved. Mrs. Schweiger realizes now that it is a poor sort of love that would destroy and take human life. She also has learned already that the gossip was false and that her suspicions were groundless, but it is too late. It has done its work and its results cannot be recalled. When she is able to reap the whirlwind to which she has sown, she must go on trial for her own life, and she must either vindicate gossip by scandalizing the name of the man she loved or plead insanity.

The pity of it all is that these terrible examples have no effect upon others, and gossip, the garbage of society, will continue to be cast into the stream of life and the pure waters of

happiness will be poisoned and defiled and misery and death will follow as they have throughout all time.

It is said that there is not a man able to walk and carry a gun in Serbia who is not in the army and fighting against Austria.

A few days ago a local merchant ordered an advertisement in The Democrat-Forum. The advertisement was set up and a proof was sent to the merchant. He was busy at the time and the proof was laid on the show case and fell under the observation of a bystander, who became interested in it. After looking it over, he ordered a good bill of the advertised goods and left with gladness in his heart and a package under his arm. It certainly pays to advertise in the paper the people read.

The state food and drug commission is calling the attention of both producers and dealers to that provision of the Missouri law wherein "the sale, keeping for sale or offering for sale of tainted or rotten eggs is prohibited." It is as much an offense against the law to offer bad eggs to the merchant either for cash or in exchange for goods as it is for him to sell them to the wholesaler. Eggs to be good in hot weather must be gathered often and marketed at least twice a week. The commission also advises the segregation of the roosters during the early summer months, as infertile eggs keep better than fertile ones. The penalty for violations of the law is severe.

CATHOLICS LEAD IN STATE WITH 490,300 RED BOOK SHOWS.

BAPTIST NEXT 225,000

Real Estate and Property Value of State Churches Total Estimated at \$50,000,000.

Real estate and personal property to the value of \$50,000,000 is owned by forty-six religious denominations of Missouri. Included are 10,000 churches, temples, missions, and other similar structures used for religious purposes, sectarian schools, seminaries and colleges, eleemosynary institutions and other establishments which are wholly owned by religious bodies and organizations. Advance information from the 1915 Red Book of the bureau of labor statistics released for publication tomorrow, after making the preceding declaration, states that, approximately, 1,500,000 men, women and children belong, directly or indirectly, to the forty-six religious denominations consisting of ninety-two divisions which owned the property.

The facts and figures imparted in this bureau of labor statistics bulletin are still tentative and therefore subject to slight changes as further information is received.

490,000 Catholics.

While Protestants are most numerous in Missouri, Catholics were in the lead in 1914 for number of communicants enrolled when each denomination is taken separately, there being reported 564 such churches approximately 490,000 members. The church going Protestants of Missouri numbered nearly a million, but they were divided into about thirty-five denominations and religious bodies.

The information so far indicates that Baptists are in the lead in Missouri among Protestant denominations, nine divisions reporting 2,632 churches and a total membership of 225,000. Eight Methodist bodies reported 2,533 churches and 214,000 communicants. Two Disciples or Christian divisions reported 1,545 places of worship and 182,000 attending members. Eight Presbyterian bodies had 788 churches and other

places of worship and reported 75,000 sectarians.

Lutherans Also Strong.

The disciples of Martin Luther form another strong Missouri Protestant denomination, seven divisions, owning 225 churches, having a membership of approximately 50,000. For the Hebrews, whether orthodox or reformed, thirty synagogues reported a combined membership of 25,000. Mormonism may have been stronger in Missouri, especially in the western portion, years ago than it is now, but seventy-four churches, representing two divisions of Latter Day Saints, reported an aggregate membership of 11,305. Mennonite churches are more numerous in Missouri than is generally supposed to be the case, six distinct divisions reporting seventeen churches and places of worship with a membership of 1,032. For the German Evangelical synod, 162 churches reported an aggregated Christian following of 33,000 men, women and children. Independent churches come forward with sixty-four organizations, with a combined membership of 3,158. The reported membership of seventy-six Congregational churches is 11,046 for 125 Protestant Episcopal temples and places of worship, 13,950.

Other denominations with a 1914 Missouri membership running from 2,500 to 10,000 were: Adventist, Christian Union, Church of Christ (Scientist), Eastern Orthodox and United Brethren. The membership of the Salvationists, Spiritualists, Theosophical, Volunteers of America, Society for Ethical Culture, Evangelical bodies and associations, and one or two other similar organizations, are included in the grand total of 1,500,000 church going inhabitants of Missouri.

Even Chinese Church.

That the state officially recognizes no church or creed, treating all alike, is emphasized by the fact that beside the denominations already specified, others which complete the forty-six denominations represented in Missouri are: Armenian, Plymouth Brethren, Buddhists, Chinese, Christians, Christians (Christian connection), Church of God and Saints of Christ, Churches of God in North America, Churches of the Living God, Churches of the New Jerusalem, Dunkards or German Baptist Brethren, Friends, Union Sectarian Church of Bible Faith, Reform bodies and Reformed Catholic church, Unitarians, Universalists and United Brethren. One Chinese temple is to be found in St. Louis with an approximate membership of 200. The Disciples of Buddha are represented in Missouri by one edifice of worship located in St. Louis, with an estimated membership of 100. Negro Baptists, Methodists and members of Churches of God and other similar colored denominations are included which are enumerated above.

510,000 Attend Sunday School.

Sunday schools, missions and other religious subdivisions in Missouri to which children belong, numbering 7,000, reported 510,000 pupils with 66,000 officers and teachers, all laboring hard to fully acquaint these future men and women with the far reaching faith of the Golden Rule.

Missouri's church property is enumerated to the extent, approximately of \$5,000,000, with those holding the mortgages and other negotiable documents fully convinced that sooner or later the loans will be repaid.

While parochial schools are maintained in nearly every Missouri Catholic parish, some of the other denominations also wholly support or contribute to elementary schools and to higher educational institutions, and several own colleges which have a state wide reputation. Many Missouri religious denominations provide homes for their dependent members and asylums for homeless children. Numerous hospitals and similar institutions are also maintained and contributed to by Missouri religious bodies.

EXTEND RURAL MAIL SERVICE

U. S. Will Serve 1,000,000 More Farmers Without Extra Cost After July 1.

Postmaster General Burleson announces that mail facilities will be extended to 1,000,000 new rural patrons before July 1, 1915, without increasing the present cost of service. This will be done by readjusting rural routes to eliminate duplications and unnecessary service.

After July 1, by means of the motor vehicle service authorized by congress and which will then be inaugurated rural mail facilities will be extended to many additional patrons.

During April changes have been authorized which, without curtailment of service, have reduced operating expenses \$177,644. This sum has been utilized to establish 263 new routes, serving 31,041 more families, or approximately 155,205 more persons.

Also extensions of existing service have been put into effect during April involving a total of 104 additional miles of travel by rural carriers. These extensions serve 1,202 more families and approximately 6,019 more persons.

In Missouri this new service has been granted at the following offices: Rookins, Perry, Dixon, Dora, Brumley, Campbell, Zora, Oak Hill and Malden.

"Whenever you find one of these little 2x4 would-be philosophers that tell you the thing that cannot be explained must not be accepted, that man has vacated his reason.

Running Away from God.

"The futile attempt of Jonah to run away from God's call was the most striking illustration that I know of my subject tonight. The absolute uselessness of running from God. You cannot get away from God. You can do one of two things—you can voluntarily come to God at the mercy seat, or you can go on in your life of sin, and eventually be brought before God at the

judgment seat, but you can't get away from God.

"You can't dodge the issue; you have got some day to face God. There are a great many ways, there are a great many agencies that God uses to try and bring men back to Himself. I would like to say that I believe the greatest one agency that God employs today is that agency that I call environment of a Christian home.

"Many men are Godly men as long as they are poor, but as soon as prosperity comes they forget God and say: 'There are men that are hugging the dollar until the eagle screams that don't care any more about the Bible or God than they do about the dog that passes by their office door. They are bowing to the almighty dollar! You put God ahead of everything else and God will bless your business.

Careless in Prosperity.

"I believe that God uses affliction to bring people to Him. I don't say God sends affliction. I don't believe that. That is superstition. You be careful how you break the promise made to God in the hour of affliction. How many in the darkest hour of affliction have we promised God that we would do certain things, and when prosperity came we turned our back on the whole thing.

"The word of God and the Spirit of

God backing up that word is trying to bring you back. You go on and resist the Spirit, and resist the word, and what will be the result?

SIX BILLIONS A YEAR IS WAR COST

Chancellor Lloyd George Estimates England's Expenses.

ULTIMATE ISSUE NOT IN DOUBT

Says All Depends Upon Operations as to Its Duration—Announces That No Fresh Taxes Are Contemplated by Government.

London, May 5.—In presenting the budget to the house of commons, the chancellor of the exchequer, David Lloyd George, estimated that if the war lasted during the whole of the fiscal year Great Britain's expenditure in that time would be £1,136,434,000 (nearly \$6,000,000,000). If the war should last six months instead of a year Great Britain's estimated expenditures would be £790,458,000.

The debt of the country, according to Lloyd George, already had been almost doubled and stood well over the \$5,000,000,000 mark.

He placed loans to Great Britain's allies at £200,000,000.

On the basis of a six months' war, the chancellor continued, expenditures for war, apart from advances to the allies of Great Britain, would rise to £100,000 daily and the net deficit would be £513,346,000. On the basis of a twelve months' war the net deficit would be £862,322,000.

"That is the sum the country will have to raise in addition to the government's revenue during the course of the present year," said he.

The chancellor gave an indication of the colossal expenditure he had to provide for in his opening sentence, "Up to the end of the fiscal year," he said, "the net cost of the war has been over £367,000,000."

"The ultimate issue of the war is not in doubt; only its duration," said the chancellor. Much depended upon the operations as to the duration of the war, but the best of them could not tell how long it would last. The operations of the summer alone could give the government a dependable opinion.

One of the most important announcements made by the chancellor was that no fresh taxes were now contemplated. In this connection he called attention to what he characterized the wonderful buoyancy of the income tax and the super tax, the actual yield being £69,390,000, or an increase of nearly £8,000,000 over the estimates. He said that the income tax would be renewed in its present form, but warned the house that if the war were prolonged it would be his duty to consider in what other form the general community would provide funds to enable the country to carry on the war.

BREAK YELLOW DYE FAMINE

Uncle Sam's Experts Find Use For Osage Orange.

Madison, Wis., May 5.—Uncle Sam through his forest products laboratory here, has solved the problem of meeting the famine in dye due to the European war, at least so far as the various shades of yellow are concerned. Experts, working under Director Howard F. Weiss, have discovered a practical yellow in the supposedly worthless Osage orange, popular in several states as hedge-row material. The wood, which is a native of the Osage country, yields a rich yellow, which by treatment has been found to be as good as the dyes to the darkest browns. The Osage orange is especially common in Indiana, Illinois and Oklahoma.

Canada Limits Shipment of Wheat. Ottawa, Ontario, May 5.—The shipment of wheat, flour and a large number of other agricultural products and commodities to the United States has been prohibited. It was officially announced, except when such shipments are intended solely for domestic consumption in the United States and not for reshipment abroad.

New Departure by Census Bureau.

The Census Bureau at Washington has established a new precedent by enumerating, at local request and expense, the population of a city between census years. This was done last month at Tulsa, Okla., under authority of a presidential order, and as a result the population of that city April 15, 1915, was officially announced a few days ago as 28,240, exclusive of 1,985 persons living on "Indian lands" located within or adjacent to the city but politically distinct from it. The increase between 1910 and 1915 was 66 per cent. The work was done by local enumerators.

Nothing better for stomach ills than Nyal's Liver Salts. Koch Pharmacy.

Prevent Moth Damage.
The various substances used to keep away moths, such as tobacco, camphor, naphthalene cones or balls, tarred paper, and cedar chips, have no effect if the eggs are already present in the clothes. Entomologists in the department therefore recommend a thorough

beating, shaking, and brushing of all articles likely to attract moths before they are laid away for the summer. The brushing of garments is especially important in order to remove eggs which may have escaped notice.

If the articles are quite free from eggs or larvae when laid away, the odor from cedar chests and wardrobes will serve to keep the moths away. This odor, however, lessens with age, so that the protection it affords is greatly decreased after a few years. For this reason when furs and other valuable garments are wrapped in tarred paper or placed in sacks of tarred paper these containers should be renewed every year or two.

RUSS WIN BATTLE AGAINST TURKS

Persian Victory Consoles Slavs
 For Defeat In Galicia.

GERMANS GAIN IN WEST.

Teutons Claim to Have Captured Some Villages In Ypres Region—Allies Advancing on Gallipoli—Turks Continue to Report Defeat of Landing

WAR SUMMARY

The Turkish forces are declared by Petrograd to have been completely defeated by the Russians in the Khor-Dilman region of the Caucasus, leaving more than 2,500 dead on the field, and their survivors to be fleeing before the Muscovites. Full details of the defeat of the Russians by the Austro-German forces along the Nida river, from the Visula southward through the Carpathians, have not yet come to hand, but Vienna declares that the Russians lost in the operations 30,000 men taken prisoners and twenty-two cannon, sixty-four machine guns and a quantity of war material.

On the western battle front the Germans claim the capture in Flanders of Zevicote, Zonnebeke Westhoek, the forest of Polygonous and Nonneboschen and to have caught the retreating allies under a flank fire from their batteries to the northeast of Ypres.

Readjustment of the British line, according to the London war office, brings the allies' line to the west of Zonnebeke. This realignment was due, London says, to the loss of ground resulting from the use of gas bombs by the Germans last week.

London, May 5.—The Russians have had at least partial revenge for the defeat inflicted upon them in western Galicia by the Austrians and Germans by badly beating the Turks, who had invaded Persia.

The defeat took place in a three days' battle near the frontier, and Petrograd reports that the Russians inflicted heavy losses on the Ottomans. If the success of the Muscovites has been followed up, military observers declare that Persia now should be free of its uninvited guests.

This battle, however, was a small affair when compared with what Germany and Austria claim they have done to the Russians in Galicia. Their reports state that some 30,000 Russians were captured and that a large number of guns were taken.

No Mention of Towns.

There is no mention, however, of any towns, such as Gorlice and Tarnow, which were close to the front, being captured, which leads the British military critics to the conclusion that while the German allies have won important local successes, they have not driven the Russians very far back. Should they succeed in doing this, however, it is asserted that a general retreat of the Russians would be imperative and that the whole Carpathian offensive, on which the Muscovites have spent so much time and so many lives, would be completely nullified.

The Russian side of the story is anxiously awaited, for a big success in the east, it is believed here, would mean an immediate commencement of operations on a large scale in the west, for which the Germans are already making preparations.

Confined to Ypres Zone.

In Belgium, thus far the fighting has been confined to the Ypres region, where the Germans claim to have captured some villages which the British say they evacuated in the process of readjusting their line.

The rumors concerning the operations against the Dardanelles were confirmed when the British war office and admiralty issued reports stating that after beating off Turkish attacks, the allied forces had taken the offensive on the Gallipoli peninsula and now were advancing into the interior. The Turks, on their side, continue to report the defeat of the landing parties and damage done to allied warships, which are keeping up a lively bombardment of the Turkish forts, both in the Dardanelles straits and at Smyrna.

The allies are reported to have effected a landing near the site of the ancient Ephesus, a location thirty-five miles southeast of Smyrna.

STAGE ALL SET FOR WAR

Hundred Thousand Chinese Soldiers Await Attack on Peking.

Peking, May 5.—Military preparations are being made for the defense of Peking. According to Chinese officials whose statements have been corroborated in other circles, the government is making no preparations elsewhere than at the capital for defense, considering that Chinese will be unable to oppose the Japanese should they make an attack.

It is asserted in high quarters that 100,000 troops have been concentrated in the environs of Peking, but with sufficient ammunition for only a brief resistance.

The Japanese legation, it is said, notified the Japanese to prepare to leave Peking and that many women and children are getting ready to depart.

LINCOLN TESTIFIES AT WASHINGTON

Says Pullman Porters Should
 Receive Higher Pay.

Washington, May 5.—Robert T. Lincoln, chairman of the board of directors of the Pullman company, testified before the federal relations commission on the condition of sleeping car porters and the company's finances.

Its capital stock, he said, is \$120,000,000 and 8 per cent interest was paid annually on the stock since 1900. In 1902 he said the pay of Pullman conductors was raised to \$70 a month for the first six months. Salaries of conductors on special trains, he said, were \$100 a month. The average, he thought, should be increased.

"Do you think the salary of \$27.50 now paid negro porters as minimum is enough to maintain his family in comfort and decency?" asked Chairman Walsh.

"Absolutely not," Mr. Lincoln replied. "That question has annoyed me much indeed."

The public, he said, rewarded services for porters, for which they gave tips, outside of the services required by the company.

Chairman Walsh asked what he thought a fair wage for Pullman conductors.

"As that matter is now under consideration by the company and will be taken up soon, I would rather wait before answering the question until it has been discussed."

Mr. Walsh mentioned a porter on a Pennsylvania train who is paid \$27.50 a month by the Pullman company but earns \$115.

"Would you or other officers of the Pullman company like to make a similar arrangement with the company for your financial dealings?" he asked.

"I frankly confess," Mr. Lincoln replied, "that I do not think this arrangement for Pullman porters is nice at all. It is an old system."

Finland Must Pay War Tax.

London, May 5.—A dispatch to the Daily Telegraph from Petrograd says that a council of ministers has decided that Finland which up to the present has contributed neither men nor money, must pay its proportionate share of the extraordinary expenditure of the war. The share assessed against Finland, the correspondent says, is 1 1/2 per cent of the total expenditure.

GREY IS SILENT ON JAPANESE DEMANDS

London, May 5.—The United States and Great Britain have entered into no formal negotiations on the subject of Japan's demands on China. An announcement to this effect was made in the house of commons by the British foreign minister, Sir Edward Grey. The foreign minister added that the only communication of the sort between the American and British governments had been a brief and formal conversation in February between Ambassador Page and a representative of Great Britain.

Asked for a statement on the progress of the negotiations between China and Japan, the foreign secretary told his questioner in the house of commons that Great Britain had been in communication with the Japanese government on the subject of the Anglo-Japanese agreement generally and particularly concerning those British interests which might possibly conflict with the competing Japanese demands on China. These negotiations, however, he said, were strictly confidential.

Asked if he were going to do nothing "until Japan by military force having already 60,000 troops in China had imposed its authority on China, and whether Great Britain was not bound by treaty to defend the integrity of China or if he was "prepared to regard that simply as a scrap of paper," Sir Edward Grey reiterated that he was not at liberty to discuss the actual terms of the Japanese demands.

HE "COVERED" THE PRIZE FIGHT.

J. M. Stevens, Fair Race Manager, Says Willard-Johnson Bout Was "Square."

J. M. Stevens of Des Moines, Ia., who managed the races at the Nodaway county fair here last September, was in Maryville yesterday enroute to Des Moines, where he will transact some fair business for this summer. Mr. Stevens has recently been in Oklahoma.

Mr. Stevens witnessed and "wrote up" the Willard-Johnson prize fight at Havana recently for Oklahoma City and Tulsa, Okla., papers. He had a position near Willard's corner and in a place which allowed a good view of the bout. It is Mr. Stevens' opinion that the fight was "on the square" throughout and that Johnson did his utmost to retain the heavyweight title.

Stevens will manage several Iowa fairs this summer and also the races at the inter-state fair at St. Joseph.

Three Drunks Not \$35.30.

J. M. Stevens, who managed the races at the fair here last fall, was fined \$5, Henry Charlton, drunk, \$5, and Robert Simmons, drunk second time, \$10, upon their pleas of guilty in police court today.
